ELSEVIER

J. Wind Eng. Ind. Aerodyn. 51 (1994) 385–386

JOURNAL OF wind engineering AND industrial aerodynamics

Contents Volume 51 (1994)

Vol. 51 No. 1

Wind loads on free-standing walls in turbulent boundary layers
C.W. Letchford (Brisbane, Qld., Australia) and J.D. Holmes (Highett, Vic., Australia) 1
Windbreak shelter effect in Taichung Harbor
B.-S. Shiau (Keelung, Taiwan) 29
Flow over two cylinders of different diameters: The lock-in effect
A.T. Sayers and A. Saban (Rondebosch, South Africa) 43
Determination of wind-driven-rain intensity on building faces
E.C.C. Choi (Singapore) 55
A wind tunnel study of the pressure distribution around sealed versus open low-rise buildings for naturally ventilated livestock housing
Y. Choinière (Alfred, Ont., Canada), H. Tanaka, J.A. Munroe (Ottawa, Ont., Canada) and A.S. Tremblay (Alfred, Ont., Canada) 71
Multi-channel simultaneous fluctuating pressure measurement system and its application
H. Ueda, K. Hibi (Tokyo, Japan), Y. Tamura (Kanagawa, Japan) and K. Fujii (Tokyo, Japan) 93
Optimization of wind turbine positioning in large windfarms by means of a genetic algorithm
G. Mosetti, C. Poloni and B. Diviacco (Trieste, Italy) 105
Unsteady horizontal wind loadings in tatsumaki
Y. Taniike (Kyoto, Japan) 117

Request for information 129
Announcement 131
Announcement and call for papers 133

Vol. 51 No. 2

Dimensionless correlations for buoyant plume behaviour in crossflows and scaling criteria for physical modelling of dispersion processes
G.A. Davidson (Waterloo, Ont., Canada) 135
The Silsoe Structures Building: Comparison between full-scale and wind-tunnel data
G.M. Richardson (Bedford, UK) and D. Surry (London, Ont., Canada) 157
Numerical predictions of turbulent recirculating flows with a κ-ε model
C.X. Zhang (Nantes, France) 177
A practical method of passive TMD for suppressing wind-induced vertical buffeting of long-span cable-stayed bridges and its application
M. Gu, H.F. Xiang and A.R. Chen (Shanghai, China) 203
Computer simulation of the fatigue behaviour of roof cladding during the passage of a tropical cyclone
E.D. Jancauskas (Rockhampton, Qld., Australia), M. Mahendran (Brisbane, Qld., Australia) and G.R. Walker (Sydney, NSW, Australia) 215

Elsevier Science B.V.

Aeroelastic torsional behaviour of tall buildings in wakes
W.J. Zhang, K.C.S. Kwok (Sydney, NSW, Australia) and Y.L. Xu (Townsville, Qld., Australia) 229
Aerodynamic forces on circular cylinders of finite height
Y. Uematsu and M. Yamada (Sendai, Japan) 249

Announcements and calls for papers 267

Vol. 51 No. 3

Numerical investigation of the effects of base slant on the wake pattern and drag of three-dimensional bluff bodies with a rear blunt end
C. Chok, S. Parameswaran (Texas, USA), R. Sun and M. Gleason (Highland Park, USA) 269
The average output power of a wind turbine in a turbulent wind
A. Rosen and Y. Sheinman (Haifa, Israel) 287
Wake effects in a linear wind farm
H. G. Beyer, W. Schmidt, H.-P. Waldl, U. Witt (Oldenburg, Germany), and Thomas Pahlke (Wilhemshaven, Germany) 303
Wind loading over the top portions of tall stacks with and without external landing platforms
K. S. Kumar and G.N.V. Rao (Bangalore, India) 319
Parameter identification of wind loads on ships
W. Blendermann (Hamburg, Germany) 339
Wind loads on planar canopy roofs, Part 2: fluctuating pressure distributions and correlations
J.D. Ginger and C.W. Letchford (Brisbane, Australia) 353
Predicting pressure distribution underneath loose laid roof cladding systems
R.J. Kind (Ottawa, Canada) 371
Letter to Editor: Wind roses
T.V. Lawson (Bristol, United Kingdom) 381
